*Fine dining
in the mara*

With our resident chef, you can experience the very finest of dishes, all curated from local providers and our very own Shamba. You can choose to dine with us in the main lodge, or in the privacy of your Suite.

Our menu is focused on the seasons, a celebration of all that is to offer in Kenya. You won't find us flying in produce from outside of Kenya, with a conscious effort on ingredients that are good for you. Guests can enjoy the fruits of our labour with meals featuring fresh ingredients from our greenhouse. From crisp salads to aromatic herbs, our produce enhances the flavour and quality of our dishes.

Your wellbeing is at the heart of Pearl Mara. Which is why all our beverages are alcohol-free. From our signature 'Taste of the Wild' to a morning Espresso Martini, sit back and enjoy the wilderness of the Mara.

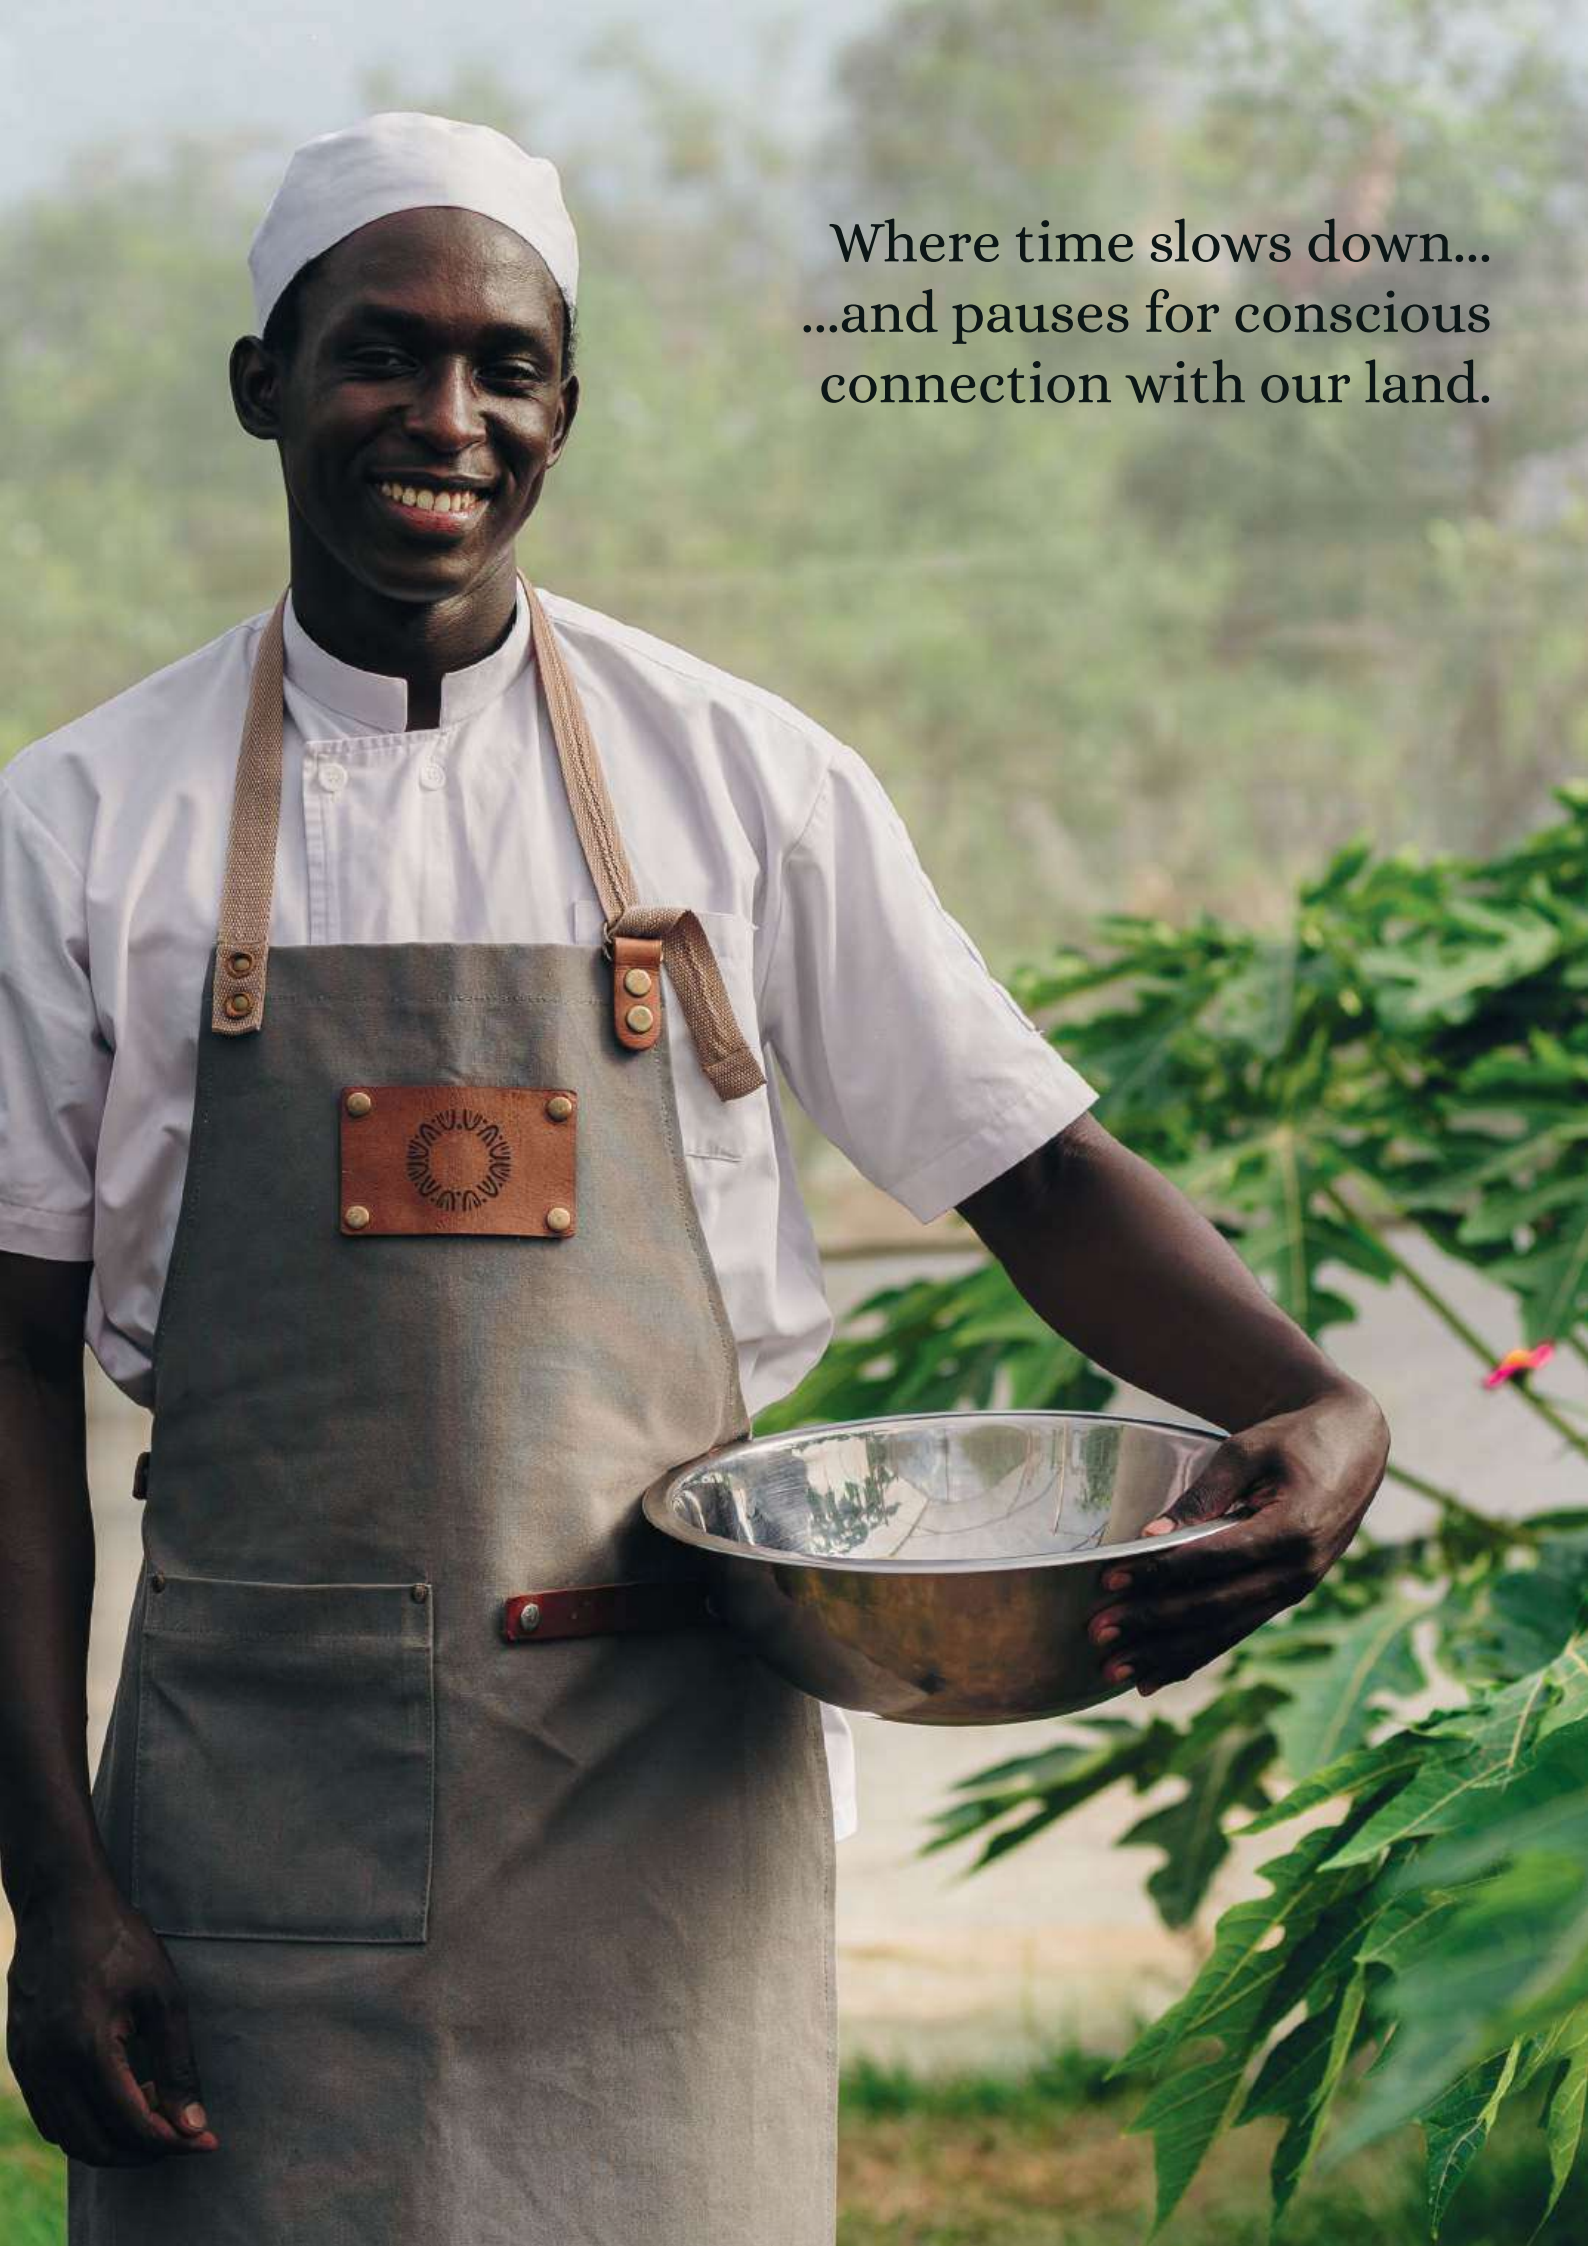

OUR COMMITMENT TO SUSTAINABILITY

We are dedicated to preserving the pristine beauty of our surroundings. Our eco-friendly practices are designed to protect and enhance the natural landscape while providing a unique and immersive experience for our guests. We utilise cutting-edge solar panels to capture and convert sunlight into clean, renewable energy. This solar power system ensures that all our operations, from lighting to heating, are powered by a sustainable source. This means we are almost entirely operating off-the-grid, using advanced technology to generate and manage our own energy.

Our lodge uses a state-of-the-art river water filtration system to ensure that the water you use is both clean and safe. This system effectively removes impurities while preserving the natural quality of the river water. By filtering river water on-site, we reduce the need for bottled water and minimise plastic waste, supporting our broader commitment to environmental responsibility.

CULTIVATING FRESHNESS AND SUSTAINABILITY

One of the cornerstones of our sustainability efforts is our very own greenhouse, managed with care by our in-house Shamba (farm). This not only supports our commitment to fresh, locally grown produce but also enhances your experience with farm-to-table offerings. Our greenhouse employs sustainable farming practices to grow a variety of fresh, organic vegetables, herbs, and fruits. We use natural fertilisers and pest control methods to ensure that our produce is as wholesome and eco-friendly as possible.

Where time slows down...
...and pauses for conscious
connection with our land.
